

LED Indicator

Return of invalid card holder

## Qualica-RD 6001G

Large capacity collecting box for card sleeves.

3 years  warranty!

**Qualica-RD 6001E** is an access control device designed to collect card-holder sleeves, which can operate independently or be integrated with turnstiles for joint use.

When the device receives a valid card holder, it automatically triggers the opening of the connected doors. In case an invalid card is detected, it will remain on top of the window without falling, preventing the door from opening.

**3 years warranty.** Lower power consumption and low noise level. LED indicator of passage status. Easy to install and maintain.
